

庆祝地球环境研究所建所20周年系列学术报告

Sebastian Breitenbach博士学术报告

应中国科学院地球环境研究所一带一路气候环境研究中心谭亮成研究员邀请，德国波鸿鲁尔大学Sebastian Breitenbach博士来我所进行学术交流

报告题目: Climate influence on Society - some examples

报告时间: 2019年5月8日 (周三) 14:30

报告地点: 地环所11楼1102视频会议室

报告简介: This talk starts with some thoughts and a discussion of the relationship between climate and environmental conditions and human society. After a short overview on the global monsoonal circulation, and caves as palaeoenvironmental archives he will give some examples of how climate influenced societies. First, he will summarize droughts in South Asia. Then he will turn to Central America and discuss how complex the relationship between humans and climate change was during the Classic Maya period.
